

# HIGH CUTTING CAPACITY

Made in Spain since 1921

## PRUNING SHEARS HIGH CUTTING CAPACITY

Altuna launches a new range of secateurs  
**LIGHT AND HIGH CUTTING CAPACITY**

CAPACITY · STRENGTH · LIGHTNESS · EFFORTLESS

**CAPACITY:** Altuna has developed a new range of pruning shears to cut up to 40mm hard branches. Specially designed for a hard use in vineyards, fruit trees and forestry.

**STRENGTH:** With the new multiplier system  you will improve up to 50% in power.

**LIGHTNESS:** With the **STRONGHAND SYSTEM** and his new aluminium profiles, we can launch a lighter and stronger handle that will improve your pruning work.

**EFFORTLESS:** Thanks to our  SYSTEM, the branch will slide on the counterblade reducing the cutting effort up to 30%

**STRONGHAND system**

Maximum lightness and performance  
The new series of high capacity ALTUNA with latest technology and extraordinary strength and lightness.

Reinforced nerves

Treated aluminium

With the new multiplier system you will **improve up to 50% in power**
